Manufactured entirely out of aluminium, A-Fence will revolutionise the fencing market. Requiring very few components to achieve an effective and robust installation, the fire-safe A-Rated aluminium design will be catching the eyes of architects, developers and, of course, homeowners across the country.

Glass roof systems

Simplicity 6

Simplicity 6 is our most popular system. It offers a stylish veranda solution that is glazed with 6mm toughened glass.

The Simplicity 6 veranda combines elegant posts, glass roofing options, and easy installation, offering an affordable and versatile outdoor solution. Available with clear or self-cleaning glass, it enhances acoustic comfort and minimises maintenance.

Spanning up to 3.5m from the wall with unlimited length potential, it suits both domestic and commercial spaces. Built with a durable aluminium frame, it comes with a 10-year guarantee and a 60-year life expectancy, ensuring long-term value.

Customisable in RAL 7016 Anthracite Grey Textured, RAL 9016 White Semi-Gloss, or RAL 9005 Jet Black Fine Textured finishes, the Simplicity 6 also offers a choice of Traditional or Contemporary guttering for a tailored look.

Bespoke RAL Colours available upon request.

Simplicity Xtra

Elevate your customers outdoor living experience with the Simplicity Xtra, a versatile addition to your range that caters to various needs. Ideal for creating refined spaces for entertaining, dining, or relaxation, the Simplicity Xtra offers a futureproof solution. Explore the adaptability and functionality of this system to meet the diverse requirements of your projects.

The Simplicity Xtra allows for an unparalleled outdoor living solution for areas with a 4m projection. Supporting this remarkable structure, the post dimensions of 70mm x 100mm contribute to its robust contemporary aesthetic, ensuring extensive coverage with minimal posting.

The Simplicity Xtra veranda system offers hassle-free installation and exceptional versatility. Its innovative design ensures a seamless installation process, saving valuable time.

The extreme versatility of the system allows for adaptability in various settings, making it an ideal choice for diverse projects.

Providing assurance of its durability, the Simplicity Xtra comes with a comprehensive package — a full 10-year guarantee and an exceptional 60-year life expectancy for the veranda frame.

This commitment to longevity establishes the Simplicity Xtra as a reliable and enduring choice, perfectly suited for those seeking top-tier outdoor solutions for their projects.

The framework is completely manufactured from aluminium and can be powder coated in a Textured RAL 7016 Anthracite Grey or RAL 9005 Jet Black finish. It also features 6mm toughened glass that is available in a range of tinted options.

Poly roof systems

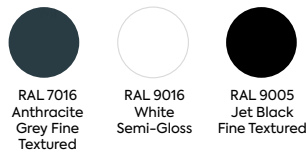

Simplicity 16

Unbeatable structural performance system that is quick and easy to install. Ideal for cost-effective garden canopies.

The Simplicity 16 is designed for fast installation, durability, and affordability, making it our most cost-effective shade and shelter solution.

With a lightweight roofing system and a 4m projection, it's ideal as a canopy, offering modern aesthetics and exceptional structural performance.

Built to last, it comes with a 10-year guarantee and a 60-year life expectancy. The aluminium frame is available in RAL 7016 Anthracite Grey, RAL 9016 White, or RAL 9005 Jet Black, all in a textured finish.

Bespoke RAL Colours available upon request.

The Simplicity 35 is durable, versatile, and benefits from unlimited length making this the ideal solution for commercial properties and those domestic homeowners looking to cover a significant space.

It is completely constructed from aluminium, giving you a structure with unbeatable durability together with a life expectancy of up to 60 years. This robust system is also supplied with a full 10 year guarantee.

The Sim 35 can be manufactured to any length to meet specific requirements and can span up to 6 metres, enabling you to cover a larger space using a minimal number of posts.

It has a modern, stylish appearance and benefits from robust integral aluminium guttering which creates an attractive finish to the structure while also ensuring a quick installation.

Furthermore, this aluminium guttering requires minimal subsequent maintenance throughout the product's lifetime.

The Simplicity 35 system features 35mm structured polycarbonate roof panels, which are available in clear, opal, bronze, or Heatshield Grey and offers in excess of 98% UV protection.

The Simplicity 35 has a variable wall pitch so you can decide on the height of the wall-plate to suit your needs. The aluminium framework is supplied in Anthracite Grey Textured (RAL 7016) and White Textured (RAL 9016) as standard.

Simplicity Free Mono & Apex Features

An innovative and versatile system that delivers stunning contemporary aesthetics. Ideal for use as wall-mounted or free-standing veranda, carport, or garden room.

The Simplicity Free systems, including the Mono and Apex, have been created with contemporary design, flawless functionality, and ease of installation in mind. Named for their freestanding options, these systems deliver maximum versatility to homeowners.

These modern structures feature a quick-fit, top-fix/snap-down glazing solution to speed up the installation of toughened glass or polycarbonate roofing.

With a maximum projection of 4 metres and spans up to 6 metres between posts (Apex), the Simplicity Free systems are perfect for any veranda, patio, or carport area.

Constructed from aluminium and designed with the rigours of UK weather in mind, both systems feature sturdy 8mm galvanised steel profile corner connector plates for guaranteed stability. Engineered to last, the Simplicity Free systems have an expected lifespan of 60 years and come with a 10-year guarantee.

Alfresco Contemporary

The Alfresco Contemporary has the option to span a massive 6 metres from post to post allowing for wide and uncompromised panoramic views.

Inspired through collaboration with a renowned designer, the Alfresco Contemporary represents an innovative and value-driven system, enhancing your customers property. Tailored for businesses in search of sophisticated outdoor solutions, it establishes a robust and inviting space for commercial properties or domestic gardens all year-round.

The roof offers 8mm toughened glass allowing for panoramic view, while also underscoring the Alfresco's commitment to quality. Integrated gutters and concealed downpipes within the frame highlight the streamlined appearance, catering to the discerning aesthetics.

Crafted entirely from aluminium for enduring reliability, the Alfresco boasts easy-fix clips on profiles, concealing fixings and downpipes to achieve a refined, modern look.

This design feature, in addition to enhancing visual appeal, accommodates the concealment of cables for supplementary features such as lighting, heating, or a sound system. The result is a seamless and elegant integration, eliminating the need for unsightly trailing cables.

The Alfresco is more than a product; it's a commitment to reliability and style. With a 10-year guarantee and a minimum 60-year life expectancy, it offers peace of mind with a durable and long-lasting investment. Explore optional extras to customise this outdoor solution, demonstrating adaptability to meet specific business needs. The Alfresco Contemporary emerges as the preferred choice for those seeking top-tier, bespoke outdoor solutions.

Aluminium Fencing

A-Fence

A-Fence is a stylish yet highly practical approach to fencing for residential and commercial premises.

A-Fence aluminium fencing is manufactured in the UK entirely from aluminium and is set to revolutionise the fencing industry. Requiring very few components to achieve an effective and robust installation, installation is quick and easy.

Among the many benefits that A-Fence provides, foremost is the

cost-effective solution for future-proofing perimeter fencing. With a lifespan expectancy of at least 60 years, the durability of this product far outweighs that of more traditional methods such as wooden fencing. Aluminium is a lightweight metal but incredibly strong, making it a tough and effective material to use for a safe and secure installation.

A-Fence achieves A2-s1, d0 fire rating, proving its non-combustibility. The shift towards using non-combustible materials in recent years across the construction industry has underlined the importance of the choices we make in regard to the materials we use to prevent any costly future remediation.
